

## *Trainer's Profile* **Fadzly Johar**

**Fadzly Johar**'s education blossomed in a premier boarding secondary school in Ipoh, in which he graduated with the prestigious Best Student Award in Physics in 2005. He went on to Universiti Teknologi Malaysia to pursue a degree in Mechanical Engineering, where his deep interest in Physics sparked and enabled him to be the sole recipient of UTM's Foundation Scholarship.

His working life began at Dyson Malaysia as an engineer and within 3 years he became the youngest integration lead that presides over a group of cross team engineers including senior engineers, to deliver cutting-edge Dyson products.

In his free time, Fadzly dabbles in public speaking with his involvement in Toastmasters. He is a member and current President of CIMA Johor Toastmasters Club, a club that has been achieving President's Distinguished Club award (highest award for clubs in Toastmasters International) for 8 consecutive years. He also actively takes part in contests in Toastmasters and was crowned as the Area G2 Champion for International Speech & Table Topics Contests in 2016. Currently, he is the Area G2 Director overseeing 5 Toastmasters clubs in Johor Bahru and in this capacity, he frequently gave public speeches for various occasions.

His exposure in Toastmasters has ignited his interest in training. His repertoire in training includes events for in-house trainer for various engineering sharing sessions in Dyson, Kelab Pidato Perdana (Johor Bahru branch), Dyson's Corporate Social Responsibilities activities to reach out to secondary school students in JB to encourage them to get into engineering fields. He is also certified as trainer for HRDF programmes.

Fadzly has great interest in personality profiling, creative problem solution and numismatic.
